🎓 Education

Post Graduation Diploma, *Cégep de la Gaspésie et des Îles*   Feb 2020 – Aug 2021
Major: Mobile Application Development
GPA : 3.4 / 4

Bachelor of Engineering, *Gujarat Technological University*   May 2015 – May 2019
Major: Computer Engineering
GPA : 3.7 / 4

🪪 Summary

- Strong knowledge of **OOP concepts**
- Experience in **REST API** projects using **Retrofit**
- Additional knowledge of **Core Java** in Android Studio and **Software Development**
- Excellent at **Problem Solving and Debugging**
- Experience in working with different android libraries: **Jetpack, Glide, Picasso, Retrofit**, etc.
- Experience in working with **Agile** software development methodologies
- Good knowledge of **Adobe Photoshop, Adobe Premiere pro, Adobe XD**
- Vast knowledge of application designing
- Academic experience in website designing using **HTML, CSS and JavaScript**
- Academic experience to work on multiple android application projects as a **Team Leader**
- **3 years** of academic experience in developing android applications in Android Studio
- Excellent skills in developing and designing databases with **Firebase and MySql**

🧠 Skills

Android Studio		Core Java	
OOP Concepts		Kotlin	
HTML		CSS	
JavaScript		Firebase	
My SQL		XML	
Git		Adobe XD	
Photoshop		Microsoft 365	

💼 Professional Experience

Junior Android Developer, *Mitaja Corporation*   Apr 2020 – Mar 2021
- Involved in the full life cycle of the project including analysis design, development, debugging, development testing, and deployment.
- Developed the application from specifications and requirement gathering.
- Focused on implementing rich user interface per UI/UX and Google's Material Design specifications.
- Extensively utilized Retrofit library with OKHttp for API calls and used the Picasso library for image caching.
- Collaborated with designers, engineers, and product managers to build great experiences.

Leveraged knowledge: Android Studio, Java, XML, Android SDK, JSON, GitHub, Retrofit, Android Development Tools (ADT)

IT Technician, *Bharja Technologies*   May 2019 – Apr 2020
- Installed 50+ new PC workstations and laptops with Windows 10 and MS Office 365. Achieved zero downtime through cloud data redundancy during the changeover.
- Maintained 99% satisfaction rating in monthly end-user scoring through applied interpersonal skills and providing fast solutions.
- Assisted clients in maintaining optimal connectivity and bandwidth.

Leveraged knowledge: IT Troubleshooting & Problem Solving, Onsite and Remote technical support, Microsoft 365, Windows 10

Android Developer (Internship), *Siyana Info Solutions*   Nov 2018 – Apr 2019
- Supporting and developing android projects in java
- Improved designing skills of an application
- Learned RestApi in android application development
- Worked on Firebase database as a backend of an android application

Leveraged knowledge: Android Studio, Adobe XD, Firebase, GitHub, Retrofit

📁 Projects

CookBook   Jun 2021 – Aug 2021
- Developed a Java Android Recipe based Application as a Final College Project
- Worked on Firebase database as a backend
- Provide in both languages French and English
- Used Adobe XD for effective Frontend of an application
- Experienced as a Team Leader

Technologies: Android Studio, Java, XML, Firebase
Github link: https://github.com/tejaspatel083/CookBook.git ↗

AllianceFrancaise   Jan 2021 – May 2021
- Developed a Java-based Android Application to provide different ways of learning French such as through Images, Voice, and text.
- Provides different levels of Learning French Language
- Worked on Firebase database as a backend
- Experienced as a Team Leader

Technologies: Android Studio, Java, XML, Firebase
